RULE FOR EVERY ANSWER

Address the member who asked: "First Sergeant, ..." or "Sergeant Major, ...". Give the answer, then the reference if you know it. If you don't know, say **"First Sergeant, I do not know the answer, but I will find out."** Never guess a number or paragraph. A confident wrong answer hurts you more than an honest "I'll find out."

1 Creeds & Army Values

Your board opens with a creed. Get it perfect, because it sets the tone for everything after.

VERIFY WORD FOR WORD

The texts below are the standard published versions. Before you lock them in, compare every word against army.mil/values/nco.html and army.mil/values/soldiers.html. Most boards ask for the **NCO Creed**. The MOI will say which one.

MUST KNOW THE CREED OF THE NONCOMMISSIONED OFFICER

No one is more professional than I. I am a noncommissioned officer, a leader of Soldiers. As a noncommissioned officer, I realize that I am a member of a time honored corps, which is known as "The Backbone of the Army". I am proud of the Corps of noncommissioned officers and will at all times conduct myself so as to bring credit upon the Corps, the military service and my country regardless of the situation in which I find myself. I will not use my grade or position to attain pleasure, profit, or personal safety.

Competence is my watchword. My two basic responsibilities will always be uppermost in my mind—accomplishment of my mission and the welfare of my Soldiers. I will strive to remain technically and tactically proficient. I am aware of my role as a noncommissioned officer. I will fulfill my responsibilities inherent in that role. All Soldiers are entitled to outstanding leadership; I will provide that leadership. I know my Soldiers and I will always place their needs above my own. I will communicate consistently with my Soldiers and never leave them uninformed. I will be fair and impartial when recommending both rewards and punishment.

Officers of my unit will have maximum time to accomplish their duties; they will not have to accomplish mine. I will earn their respect and confidence as well as that of my Soldiers. I will be loyal to those with whom I serve; seniors, peers, and subordinates alike. I will exercise initiative by taking appropriate action in the absence of orders. I will not compromise my integrity, nor my moral courage. I will not forget, nor will I allow my comrades to forget that we are professionals, noncommissioned officers, leaders!

HOW TO LOCK IT IN

Each paragraph starts with its own anchor: **Professional** → **Competence** → **Officers**. Recite it out loud 3 times a day, standing at attention, ideally in front of someone who can follow along with the text. Speak at a steady pace. If you stumble, pause, then keep going. Don't start over.

MUST KNOW THE SOLDIER'S CREED

I am an American Soldier.

I am a warrior and a member of a team.

I serve the people of the United States, and live the Army Values.

I will always place the mission first.

I will never accept defeat.

I am disciplined, physically and mentally tough, trained and proficient in my warrior tasks and drills.

2 Board Procedure & AGSU

Your appearance and how you report in are graded before you answer a single question.

LOCAL CHECK: THE MOI DECIDES

Below is a common battalion-board sequence. Some details vary by unit: whether you salute an NCO board president, how many knocks, and the exact reporting phrase. Ask your 1SG or a recent board-goer, and follow the MOI once it comes out.

Typical reporting sequence

```
[Knock once, firmly. Wait.]
CSM: "Enter."
[Enter. Close the door. March by the most direct route to about 2 paces in front of the president, centered. Halt.]
YOU: "Sergeant Major, Specialist ________ reports to the President of the Board." [Salute if the MOI says to. Hold it until it's returned or you're told to drop it.]
CSM: "Recite the NCO Creed." [Stand at attention. Speak up and keep your eyes forward.]
CSM: "Take your seat." [Sit straight, back off the chair back, feet flat, hands palms down on your thighs.]
CSM: "Tell the board about yourself." [See Section 4.]
[Each 1SG asks questions. Address each one as "First Sergeant."]
CSM: "Stand up. You are dismissed." [Stand at attention. Salute if required. Face about. Exit and close the door.]
```

Bearing

- Eye contact with whoever asked the question.
- No fidgeting, "um," or "like." Pause instead.
- Speak a little louder and slower than feels natural.
- If you didn't hear the question: "First Sergeant, could you repeat the question?"
- If you make a mistake, correct it calmly: "Correction, First Sergeant..."

What graders usually score

- Knowledge of world affairs LOCAL
- Awareness of programs and leadership
- Basic Soldiering knowledge

Confirm the actual scoresheet in the MOI.

8 SHARP, EO & Suicide Prevention

Every board asks at least one. Precision matters: don't mix up SHARP, EO and harassment reporting.

SHARP: AR 600-52 (11 Feb 2025)

MUST KNOW Ch 2 = sexual harassment. Ch 3 = sexual assault. Ch 9 = retaliation. Para 3-3 = restricted and unrestricted reporting.

Restricted report

Confidential. **No** command notification of the victim's identity and **no** investigation. The victim gets medical care, advocacy, and counseling. Some exceptions apply. Made to a **SARC, a SHARP VA, or healthcare personnel**.
VERIFY the list in para 3-3.

Unrestricted report

Triggers **command notification and an investigation**. The victim also gets medical care, advocacy, and counseling. It can be made through the chain of command, law enforcement, a SARC, or a VA.

AS A LEADER, NEVER DO THIS

Never promise a Soldier confidentiality yourself. You are not a restricted-reporting channel. Connect them to a **SARC or SHARP Victim Advocate**, who can explain both options and the exceptions.

24 Situational Questions

"Specialist, you're a team leader and..." There's no single right answer. The board wants to see you think like an NCO.

THE 5-PART ANSWER

1. Safety first: is anyone in danger? · **2. Take immediate action:** stop it, correct it, or secure it. · **3. Find the facts:** talk to the Soldier. · **4. Use the right resource or regulation**, and **inform your chain**. · **5. Document and follow up** (DA Form 4856).
Speak in the first person and in the order you'd act: "First Sergeant, first I would..., then I would..."

Discipline & standards

Situation	A strong answer
Your Soldier is late to formation for the second time.	Talk to them privately to find out why. Do event counseling on a DA Form 4856 with a plan of action. Apply corrective training if appropriate. Inform your squad leader. Follow up. If it keeps happening, it moves up the chain.
A Soldier from another unit walks past you out of uniform standard.	Make an on-the-spot correction, professionally and respectfully. Every NCO enforces standards, not just the ones in their own unit.
Your Soldier failed the AFT.	Find out why: injury, preparation, or effort. Build a plan with them (H2F resources, extra PT). Counsel and document. Follow your chain's policy on flags and retests.
Your Soldier failed the ABCP waist-to-height check.	Make sure the assessment followed AD 2026-13 (a second team confirmed it, recorded on DA Form 5500). Counsel the Soldier. Connect them with H2F dietitians and trainers. Inform your chain. Be supportive and hold the standard.
You smell alcohol on your Soldier at first formation.	Remove them from duty and from any weapon or vehicle. Inform your squad leader or PSG right away. The command decides on testing. ASAP referral (AR 600-85). Document it.
Your Soldier posted a photo of the vehicle line and the deployment date on social media.	Have them take it down right away. Explain the OPSEC risk (AR 530-1). Inform your chain, since it may need to be reported. Counsel and retrain.

Soldier care

Situation	A strong answer
Your Soldier says, "Sometimes I don't see the point of anything anymore."	**ACE.** Ask directly: "Are you thinking about killing yourself?" Care: listen and take it seriously. Escort: stay with them and take them to Behavioral Health, the chaplain or the ER. Never leave them alone. Inform your chain. If there's immediate danger, call 911.
A Soldier tells you they were sexually assaulted.	Make sure they're safe and get medical care if needed. **Don't promise confidentiality.** Tell them you have to report it, and connect them with the SARC or SHARP VA right away. The VA explains restricted and unrestricted reporting. Don't investigate yourself. Protect their privacy. AR 600-52.
Your Soldier is being harassed by another Soldier because of their race.	Stop the behavior. Make sure the victim is safe. Inform your chain. Explain the EO complaint options: informal, or formal on DA Form 7279. Connect them with the unit EOL. Protect them from retaliation. AR 600-20 Ch 6.
Your Soldier can't pay rent this month.	Find out the cause. AER for emergency assistance. ACS financial readiness counseling. Help them build a budget. Follow up next payday.
Your Soldier's family member is in the hospital back home.	Inform your chain right away for emergency leave. Red Cross message. AER for travel funds if needed. Check on them while they're gone.

A new Soldier just arrived on your team.	Sponsor them. Do the initial counseling within the first 30 days. Learn their background, goals and family situation. Get them through in-processing, issue and training. Pair them with a battle buddy.

Leadership & mission

Situation	A strong answer
You get an order you think is unsafe.	Bring your concern to the leader who gave it, respectfully, with facts and risk-management steps. If it's lawful, execute it with controls in place. If it's clearly illegal, do not obey, and report it through the chain.
Your squad leader is gone and the PSG gives your team a mission.	Acknowledge it and back-brief. Use the TLPs: issue a WARNORD, plan, inspect (PCCs/PCIs), execute. Report completion. "Initiative by taking appropriate action in the absence of orders." (NCO Creed)
Two of your Soldiers keep arguing and it's affecting the team.	Separate them and talk to each one individually. Find the root cause. Mediate. Set clear expectations. Counsel if needed. Inform your squad leader if it keeps happening.
Your team is behind on PMCS before a field problem.	Prioritize: get the vehicle and weapons mission-capable first. Divide the tasks by who knows what. Inform the chain about deadline faults early, not at the last minute. Do an AAR afterward so it doesn't happen again.
Your friend from your old team is now your Soldier.	Have the conversation early. Explain the relationship has changed professionally. Enforce the same standard for everyone. Avoid any appearance of favoritism (AR 600-20 / AR 600-32).
You made a mistake that affected the mission.	Own it right away. Tell your leader what happened and what you're doing to fix it. Learn from it in the AAR. Integrity matters more than looking good.

Tactical

Situation	A strong answer
Your team makes contact on a patrol.	Return fire and take cover. Locate the enemy. Send a SALUTE report. Gain fire superiority. Follow the battle drill (react to contact) and the squad leader's direction. Send a LACE report after contact.
A Soldier on your team is wounded under fire.	Care Under Fire: win the fight first. Direct the casualty to self-aid and cover. Once it's safe, apply a tourniquet if there's massive bleeding. Move to Tactical Field Care (MARCH). Request MEDEVAC with a 9-line.
You find a suspected IED on your route.	Stop. Don't touch it. Confirm from a distance. Clear the area. Cordon it off. Check for secondary devices. Control the area. Report with a 9-line UXO/IED report. VERIFY the 5 Cs: Confirm, Clear, Call, Cordon, Control.
